Biochemistry Review Answer - blazingheartfoundation.org

Biochemistry is one of the crossover fields of chemistry. Biochemists have to understand both the living world and the chemical world. Even if you don ' t want to become a biochemist, you'll still have to understand atoms and molecules as a biologist. You'll also have to know about organic chemistry; a much bigger area of chemistry. The key thing to remember is that biochemistry is the ...

Chem4Kids.com: Biochemistry

Biochemistry may be used to study the properties of biological molecules, for a variety of purposes. For example, a biochemist may study the characteristics of the keratin in hair so that shampoo may be developed that enhances curliness or softness. Biochemists find uses for biomolecules.
