“Driving the Future is the story of a dramatic success in a key battle in the fight against global warming—improving the environmental performance of vehicle fleets—with a lucid explanation of how to bridge science and public policy. Reading the book is as pleasant as having a talk with a good friend, and as informative as a full course in public policy.” —Mario J. Molina, PhD, professor at the University of California, San Diego, and winner of the 1995 Nobel Prize in Chemistry for ...

## Driving the Future: Combating Climate Change with Cleaner ...

The future may trend towards self-driving cars that are rented on demand similar to public transportation. This trend would reduce parking and congestion issues drastically. I picked this book up expecting a window into the development of futuristic cars, however Margo Oge describes herself as "not a car expert," and the superficial technical descriptions
