Finder is the one-stop shop for every shred of data on your Mac. It is sometimes the best way to find what you are looking for (though Spotlight really gives it a run for its money). The best part is that you have direct access to cloud-based programs in Finder, too. So, you don't have to go digging around in the Dropbox app or iCloud Drive.

While most Mac users only have a single account on the computers, it can be useful to create additional accounts for friends, family, or coworkers. If you're new to Mac or seek advice understanding user accounts in macOS, have a look at this guide in which we explain you how to create user accounts, when and how to use each of the different types of accounts, and how to delete them when you don't need them any longer.
