Port operations involve a complex system of interrelationships. Companies compete for business while sharing space and various technologies. As a result of this, different IT systems must be able to communicate and exchange information without losing data. Port operation management system leads to a greater understanding of how traffic is handled and resources are used.

You will also have the option to study law, and risk and asset management and broaden your experience with employer visits and lectures from guest speakers.

MSc Port Management | Postgraduate course | Liverpool John ...

Port Management and Operations. Ports are the pillars of global economy, trade, and transport: Eighty percent of global commodities are carried by water; 2,000 sea ports and 10,000 terminals facilitate world trade by serving over 50,000 ocean-going ships while generating over thirty percent of the global GDP on an annual basis.
