while the front drivers
turn signal bulb is not
burned out, it is only
at about 1/4 of normal
brightness. Driver
side rear turn signal is
at normal brightness.

2006 Dodge Grand
Caravan - Turn signal
on driver side ...

Remember that the
rear should only have

Acces PDF Rear Signal Wiring

2 wires on each side since the rear signals do not have running light feature. That means that you will find 1 wire for ground and 1 wire for signal pulse. The signal pulse wire should be the same color as the fronts so check and compare your wiring and note which color this is.
