Divided into nine chapters that cover the various periods of celluloid terror, The Art of Horror Movies not only provides the promised visual history, but also a brief but highly informative written account of the decades' standout films. Each chapter is written by a preeminent voice in the genre, so we have Sir Christopher Frayling covering the silent era, for example, and the ever debonair Kim Newman offering his unique take on the most visually arresting decade, the sixties.

October 28, 2016. by Shane Scott-Travis. Due to the often exploitative nature of horror films and the upsetting ideas they often provoke, the artistic merits, technical skill, and aesthetic intentions behind them can often be diluted or overlooked entirely. As with most populist filmmaking there's always an influx of artless, derivative and profit-motivated work that discredits the real artist and auteurs out there making legitimately meditative and extraordinary work.
