His Freund Heins Erscheinungen in Holbeins Manier was published in 1785 with an accompanying text by the German writer and satirist Johann Karl August Musäus (1735-1787). According to Collins, his text and Schellenberg's illustrations "made a decisive break with both the medieval and Renaissance traditions, signalling the form and content of the modern Dance of Death".~~

Around 1430 a Dance of Death could also be observed on the cloisters of the old St. Paul's in London; this was accompanied by French verses translated into English by John Lydgate. It is suggested that the Dance's origins may be traced back to medieval drama.

DANCE OF DEATH. The German expression for dance of death is Totentanz, meaning a dance of the dead, not of personified Death. The bizarre French term danse macabre, or danse de Macabr é, is of uncertain origin, though there is a traditional interpretation as "dance of the Machabees." The gruesome story recorded in 2 Mc 7 fits in neatly with the idea and could quite well be associated in some way with the dance of death, for such it was.

Inspired by the medieval mystery plays Sommer 14 ¶ A Dance of Death is an epic telling from a German and European perspective of the world's descent into war. Employing the character of Death as a guide, the play uses the classic Danse Macabre structure of a series of searing vignettes to illuminate the people and the events that led up to the outbreak of the First World War.

Dance of death, also called danse macabre, medieval allegorical concept of the all-conquering and equalizing power of death, expressed in the drama, poetry, music, and visual arts of western Europe mainly in the late Middle Ages. Strictly speaking, it is a literary or pictorial representation of a procession or dance of both living and dead figures, the living arranged in order of their rank, from pope and emperor to child, clerk, and hermit, and the dead leading them to the grave.

The Danse Macabre, also called the Dance of Death, is an artistic genre of allegory of the Late Middle Ages on the universality of death: no matter one's station in life, the Danse Macabre unites all. The Danse Macabre consists of the dead or a personification of death summoning representatives from all walks of life to dance along to the grave, typically with a pope, emperor, king, child, and laborer. It was produced as memento mori, to remind people of the fragility of their lives and how vain

Released: 24 November 2003. Dance of Death is the thirteenth studio album by English heavy metal band Iron Maiden, released first in Japan on 2 September and then 8 September 2003 in the rest of the world excluding North America (where it was released a day later). The album was recorded on magnetic (analogue) tape.

All this contrasts rather starkly to modern attitudes to death. Nowadays the dance is hardly ever heard at all; even the Grim Reaper, Death's embodiment, is limited to appearances as a clunky metaphor in political cartoons and as harbinger of the end in the ever-popular Sims games.

One of Holbein's first great triumphs, The Dance of Death is an incomparable sequence of tiny woodcuts showing the folly of human greed and pride, with each image packed with drama, wit and horror as a skeleton mocks and terrifies everyone from the emperor to a ploughman.
