3- Add your MT4 Account

- a. Click Accounts in the dashboard

- b. Click "Add Account"

- c. Fill in your information, follow the instructions in the image and click “Add Account”

The image shows a dark-themed 'Add Account' form. It contains several input fields and radio buttons. Red callouts and boxes highlight specific parts: 'Select MT4' points to the selected radio button for Metatrader 4 (MT4); 'Enter Your Full Name' is inside the Descriptive Name input field; 'Your MT4 Account Number' is inside the Account Number input field; 'Your MT4 Account Password' is inside the Account Password input field; 'Select your Broker Name' and 'Select your Account Server' are inside callout boxes pointing to the Broker Name dropdown menu; and 'Add Account' is inside a blue button at the bottom.

4- Start copying the Aviator Account

- a. In the dashboard, under “Configurator”, choose “Trade Copier”

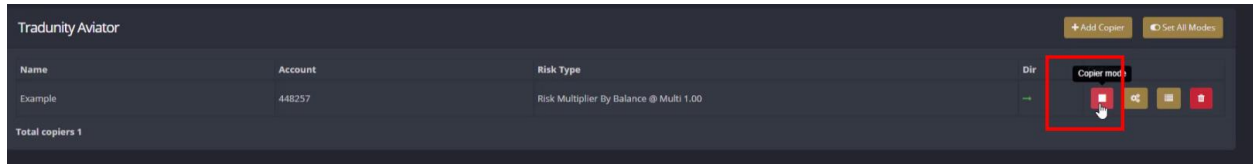

b. Click "Add Copier"

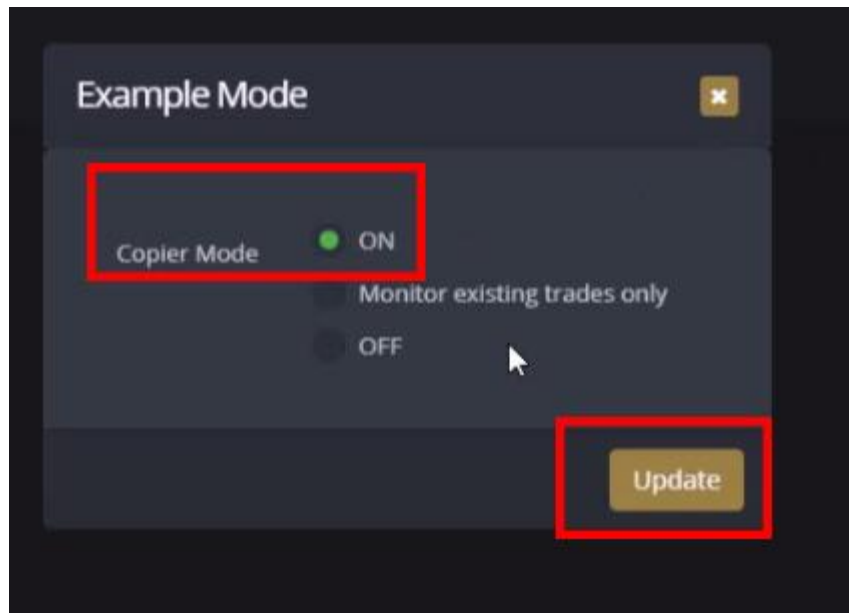

c. Fill in the form, use the recommendation below. Then, click "Create Copier"

A screenshot of the "Add New Trade Copier" form in a mobile application. The form is titled "Add New Trade Copier" and is set against a dark background. It contains several rows of input fields and dropdown menus, each with a corresponding recommendation box on the right. The fields are: "Copy From" (set to "Aviator"), "Send To" (empty), "Risk Type" (set to "Risk Multiplier By Balance"), "Multiplier" (set to "1.00"), and "Copy Existing Trades" (set to "No"). At the bottom, there is a checkbox labeled "I have read the T&C's" which is currently unchecked. A blue "Create Copier" button is located below the checkbox. A red rectangular box highlights the checkbox and the "Create Copier" button.

d. Click the red square to enable the trade copier

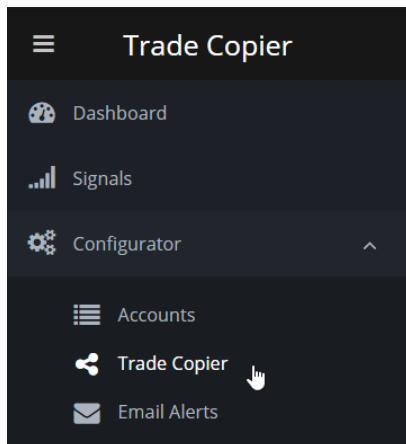

e. Click on "on" and then "Update"

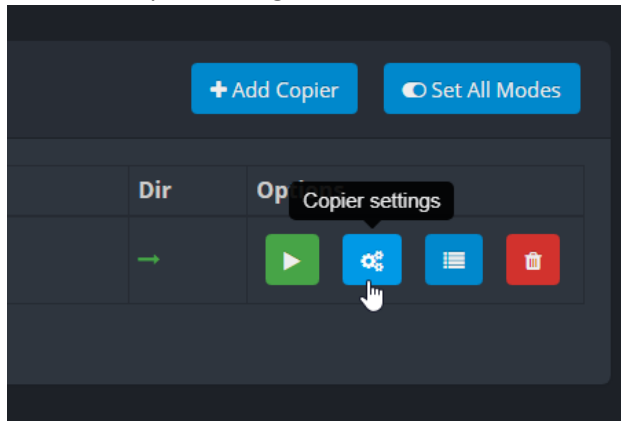

5- Updating Stop Loss and Take Profit Features

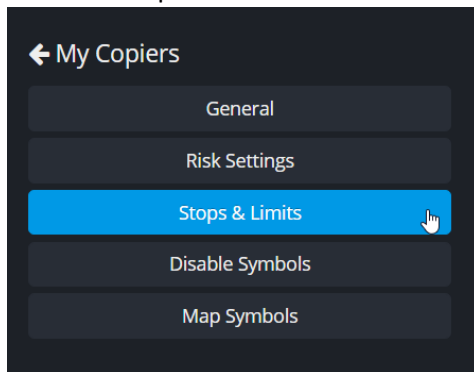

a- Click "Configurator" > "Trade Copier"

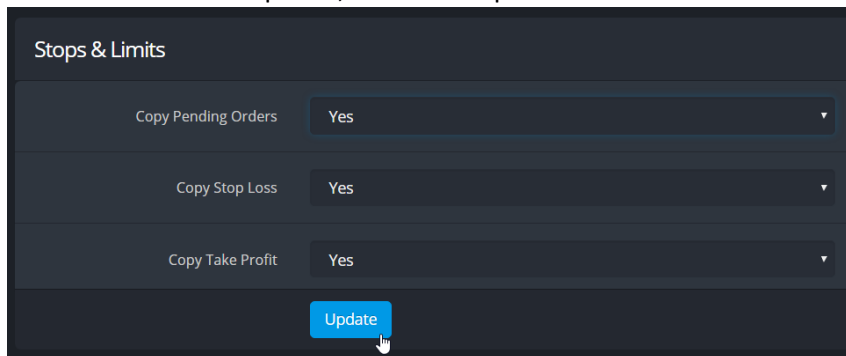

b- Click on "Copier settings"

c- Click on "Stops & Limits"

d- Choose "Yes" for all options, and click "Update"

That's it! If the button is now green, your copier has started working!
